2023

AC-Unity is a trusted manufacturer and supplier of military weapons and ammunition, fully licensed to operate in the industry. We are located in the industrial zone of Goražde, surrounded by a network of companies that specialize in metalworking and related products. Our strategic location enables us to leverage the synergies of these industries to deliver high-quality products and services to our clients.

At AC-Unity, we specialize in the production of standard parts and aftermarket products for a range of small arms. We are proud to have added a 9mm SMG to our portfolio, which is produced in and exported from Bosnia and Herzegovina. In addition to our small arms production, we offer the following services:

- Upgrades of standard small arms systems to enhance their performance and capabilities
- High-precision spare parts for AK47 and other popular small arms platforms
- Accessories and spare parts for AR15, including high-capacity magazines
- Production of high-strength polymer ammunition boxes for reliable and secure transport of ammunition
- International trading of military goods from the region, ensuring that our clients have access to the best products from around the world

At AC-Unity, we are committed to delivering the highest quality products and services to our clients. We use the latest manufacturing techniques and technology to ensure that our products meet the highest standards of performance and reliability. With our experienced team of professionals and dedication to excellence, we are the go-to source for all your military weapons and ammunition needs.

BLOWBACK SYSTEM

The simple and reliable blowback system not only makes cleaning and maintenance easier for the users in the field but also reduces the felt recoil especially when fired in the full-automatic mode.

UPPER RECEIVER

The upper receiver is made from 7075 aluminum alloy with a hard anodized surface, making it highly resistant and durable.

BARREL LENGTH

Barrel length is available in two dimensions 7,5" and 10,5".

LOWER RECEIVER

The lower receiver is made of a lightweight aluminum or high-resistance polymer, reducing the total weight of the gun and absorbing the recoil of the system. The magazine well accepts 9mm magazines of different capacities and provides finger grooves in the front. Any standard AR-15 grip can be chosen and mounted by the user.

FIRE SELECTOR

In order to provide maximum comfort and safety an ambidextrous fire selector has been designed with easily recognizable icons allowing one to see and feel the modes even in low-light conditions.

BUTTSTOCK

The retractable polymer buttstock provides various points to attach quick-detachable swivel slings and can be extended to 5 different length positions. In addition, each buttstock comes with 3 different rubber back-plates, allowing easier handling in different positions and for different operation purposes.

FEATURES

The AC Alfa SMG 9 has been specially developed for the special forces of Bosnia, requesting a reliable product for professional users.

The overall design is based on the idea to provide a one-fits-all solution for various users and purposes within different forces and the result is a multi-purpose weapon for modern urban requirements.

The AC Alfa SMG 9 is fully compatible with weapons of the M16 and M4 family, providing a simple and reliable blowback system in the caliber 9x19mm allowing for easy cleaning and maintenance and reliable functioning.

The AC Alfa SMG 9 is produced with the highest technical standards, taking into consideration the real needs of modern police and military forces.

Together with the used materials and surfaces technology guarantee simple maintenance and functionality performances in all environments and conditions.

DELIVERY PACKAGE

The AC Alfa SMG 9 is shipped in the following standard configuration:

- AC ALFA SMG 9 Submachine Gun
- User Manual
- Flip Up front and Rear Sights
- Two 30 Rounds Magazines
- Cleaning Kit
- Tactical Sling

SPECIFICATIONS

Description	AC Flare Gun cal. 26.5mm
Production	AC-Unity
Weight	528g
Length	199.8mm
Barrel length	154.8mm
Color	Opaque Black
Body material	Polymer
Capacity	1
Caliber	26.5mm flare gun/signal pistol
Item code	AC00048

FEATURES

The all-new AC-Unity Flare Gun is a modern state-of-the-art and highly durable tool to dispense 26.5mm flares or smoke grenades.

The body of the pistol is made of a special polymer that is highly impact and UV resistant and can be operated through a wide range of temperatures. The barrel of this Flare Gun is made of stainless steel which guarantees a minimum lifetime of about 2000 shoots with full power flares.

Flare guns are used in any situation when you need to send a distress signal.

The flares must be shot straight up into the air, making the signal visible for a longer period of time and revealing the position of whoever is in need of assistance.

DELIVERY PACKAGE

The AC Flare Gun is shipped in the following standard configuration:

- Flare gun
- Polymer box with sponge
- 3-language manual in English, German and Croatian

FEATURES

Our high-quality AK47 Magazine is built to the highest standards for reliable and consistent performance. This magazine is designed to fit AK47, AK103, AK104, AK15, AKM, AKS, and SIG556R rifles, and is perfect for a range of shooting applications.

With a capacity of 10 rounds and a caliber of 7.62x39mm, this magazine is ideal for target practice, tactical operations, and more. It features a lightweight and durable UV-resistant polymer body that's built to last, as well as a carbon steel spring and polymer follower for smooth and reliable feeding of ammunition.

In addition, this magazine is equipped with front and rear locking lugs made of metal reinforced alloy, adding extra strength and durability. These locking lugs ensure a secure fit and reliable feeding of ammunition, even in the toughest shooting situations.

At just 110g when unloaded, this magazine won't weigh you down, and its opaque black finish adds a sleek and professional look to your rifle. The polymer baseplate provides a secure grip for easy installation and removal, making it a breeze to swap out magazines in the heat of the moment.

If you're looking for a high-quality AK47 magazine that you can count on for reliable and consistent performance, look no further than our 10 RDS AK47 Magazine in caliber 7.62x39mm.

FEATURES

Our 30 RDS Gen.3 AK47 Magazine in cal. 7.62x39mm is lightweight and highly reliable for all AK47/AKM weapons, these magazines are mainly developed for MOD and Law Reinforcement users.

It is made from an advanced polymer resin/granulate that is lightweight and extremely shock resistant.

This polymer is exclusive to AC-Unity and gives these magazines a huge edge in weight and durability.

The body is impact resistant through a wide range of temperatures.

The magazine floor plate is made of anti corrosive steel to ensure additional reliability when dropping freely to the ground.

Front and rear locking lugs are machined from a specific marine grade metal-alloy that is hardened, anti-magnetic, highly anti-corrosive with great wear properties.

The carbon steel spring is hardened and anti-corrosive so that will not degrade from use or loaded storage.

FEATURES

The AC MIL-Spec Stock Assembly is perfect for upgrading an existing AR15 M4 or building a new carbine rifle. Originally developed for the AC-SMG carbine; this buttstock is rugged, lightweight, and user-friendly.

It provides optimal feel and stability on the shoulder.

It offers great quality construction, thoughtful design, and a solid, confidence inspiring feel not found in most stocks or similar weight (no rattles or creaks).

The buffer tube is machined from 6061-T6 aluminum and given a hard coat anodized finish to withstand years of abuse.

The 6-position telescoping stock features a built-in sling swivel to mount your favorite rifle sling. AC Stock Assembly comes ready to be mounted onto AR15, LR308, and AR9mm carbine right from the package.

The package includes everything you need to install on your AR15-style receiver: AC MIL-Spec Buttstock, 6-position buffer tube, castle nut quick detach sling socket end plate, buffer, and recoil spring.

FEATURES

AC Safety Selector Full Auto is manufactured for M16/M4-style rifles.

This full-auto Safety Selector puts a control lever on both sides of the receiver for easy, convenient manipulation with either hand.

Both control levers are the same size and shape, so regardless of which one you hit, the "feel" and amount of leverage needed to activate it will be the same.

It also has a reversible barrel that allows for either standard 90 ° or short throw 60 ° travel.

This drop-in replacement for a standard MIL-spec selector is precision machined to strict quality control standards to ensure a correct fit, reliable performance, and long service life.

Our steel, matte black finish Safety Selector full auto is engineered to deliver reliable performance even in hard-working used law enforcement rifles.

It is a great component to have in the spare parts chest or to use as a replacement for damaged components.

SPECIFICATIONS

Description	AC Safety Selector - Full auto
Production	AC-Unity
Color	Opaque Black
Body material	Steel
Weapon type	M16, M4

Color	Opaque Black
Body material	Polymer
Models Fit	G3, HK91, PTR91, HK33, HK94, MP5 or HK94
Item code	AC00140

FEATURES

The new AC-Unity HK MP5 Fixed Buttstock takes a modern turn against traditional HK stock.

Soft recoil pads produced from refined rubber have replaced old-style metal plates which allows all users more comfortable usage and positioning.

The hard component is made of heavy-resistant polymer with superior weather resistance and a lifetime warranty. Simple installation and compatibility for all stamped receiver platforms AK47/ AKM/ AK74 SAIGA.

Metal sling loop included.

Can be made in different colors: Black, OD Green, Coyote Tan and others.

SPECIFICATIONS

Description	AC HK MP5 Fixed Buttstock
Production	AC-Unity
Weight	478g
Color	Opaque Black
Body material	Polymer
Models Fit	HK MP5 9mm, AK47, AKM, AK74, SAIGA
Item code	AC00147

FEATURES

AC HK MP5 Folding Buttstock with buttpad lets smaller stature shooters or officers wearing body armor have a weapon that is better fitted to their needs.

This stock uses the same quick open steel housing and folding arm that all of our H&K stocks use.

Will fit the HK MP5 9mm, HK SP89 or clones. These stocks have a lifetime warranty but are built tough enough so that you never have to use them.

FEATURES

The new AC HK G3 PSG1 Grip is the updated Gen2 model. It is a great upgrade if you want the PSG1-style grip frame for your HK firearm.

It has the same grip features as the AC Unity Grips made for firearms such as AR15. The ergonomically enhanced AC Unity Grip fits all metal HK grip frames both the semi-auto and full-auto metal grip frames.

It fits all metal steel grip frames: HK91, G3, PTR, CETME, 93, 33, 94, and SP89.

It includes an ambidextrous palm shelf for increased stability and weapon control.

The ambidextrous palm swell provides shooters with proper trigger finger placement.

SPECIFICATIONS

Description	AC HK G3 PSG1 Grip
Production	AC-Unity
Weight	220g
Color	Opaque Black, OD Green, Coyote Tan, and others
Body material	Polymer
Models Fit	HK91, G3, PTR, CETME, 93, 33, 94, SP89
Item code	AC00158

FEATURES

Our AC HK Pistol Grip is a new grip for HK91, G3, PTR91, and CETME.

It is made from an advanced polymer-resin/granulate that is lightweight, shock and UV resistant.

This state of art polymer is formulated to withstand temperatures from minus 30°C to 120°C. They will not crack or break.

Beautifully designed and textured for a great feel and sure grip. It also goes correctly for HK33 or MP5-style weapons using buttstocks mounted with steel backplates.

FEATURES

This Ammunition Box is a high-quality, durable storage solution designed specifically for ammunition and firearm accessories. With its exceptional features and reliable construction, this ammunition box ensures the safety and organization of your valuable supplies. Made from premium polymer, the Ammunition Box is built to withstand the toughest conditions. The robust construction guarantees long-lasting durability, protecting your ammunition from moisture, dust, and impact. Its sturdy body material ensures that your valuable supplies remain intact and unaffected, even in harsh environments. The 6-point hinge latch system, accompanied by a 6-point lock, provides maximum security for your ammunition. You can trust that your valuable supplies will be safe and protected, preventing unauthorized access. The 7-point rear hinge ensures smooth and easy opening and closing of the box, making it effortless to retrieve your ammunition when needed.

The compact dimensions of 340 x 167 x 230mm offer ample storage space while allowing for easy transportation and stacking. The molded feet at the bottom and foot pads on the lid enable seamless stacking of multiple boxes, optimizing space utilization and convenience.
