AC ALFA SMG 9

BUTTSTOCK

The telescopic polymer buttstock is designed to provide the perfect balance between comfort and practicality. With its adjustable length and durable construction, it allows shooters to customize their rifle according to different needs and operational scenarios. Ergonomically shaped and crafted from high-quality materials, this buttstock ensures excellent performance in various situations

BLOWBACK SYSTEM

The reliable and simple blowback system is designed to ensure high performance and easy maintenance. This system allows the rifle to function flawlessly even in the most challenging conditions, including full auto/cyclic mode.

UPPER RECEIVER

The upper receiver is made from high-quality aluminum that is lightweight and durable. It has excellent corrosion resistance.

BARREL LENGTH

Barrel length available in 7.5” and 10.5”.

FIRE SELECTOR

In order to provide maximum comfort and flexibility, the fire selector is ergonomically designed. It allows the shooter to easily choose between different firing modes, even in the most challenging conditions.

LOWER RECEIVER

The lower receiver is light, strong, and made from high-performance materials to guarantee maximum durability. It features an ergonomic design for better handling and operational effectiveness. The modular construction of the lower receiver provides easy customization, enabling additional parts and accessories to be attached and mounted by the user.

AC ALFA SMG 9

FEATURES

The AC-Unity Alfa AC-SMG9 is a modern 9×19 mm submachine gun designed and manufactured in Bosnia and Herzegovina, representing one of the most advanced firearm projects developed by AC-Unity. Engineered for the needs of military, law-enforcement, and special-purpose units, the AC Alfa SMG 9 combines compact dimensions, lightweight construction, and high modularity to deliver exceptional performance in close-quarters and urban environments. Built around a simple yet reliable blowback operating system, the platform ensures ease of maintenance and long-term durability while offering excellent controllability during rapid or automatic fire.

Featuring a forged aluminum upper receiver, ergonomic controls, and compatibility with widely used M16/M4-type components, the Alfa AC-SMG9 stands out as a versatile and user-friendly weapon system. Its adjustable stock, ambidextrous fire selector, and multiple barrel-length options allow operators to tailor the firearm to different tactical roles. With its robust design and practical features, the AC Alfa SMG 9 demonstrates the growing technological capabilities of the Bosnian defense industry and its readiness to meet modern security demands.
